

Battery Heated Glove Liners

Gear | Gadget

ActiVHeat has come up with [Battery Heated Glove Liners](#)(\$70) keeping the fingers comfy warm while you use your gloves. The cable management is hidden in clothing with the glove liners connected via a plug coming out of the sleeve to the battery pack. It features uses one battery pack for holding 6 AA replaceable batteries for up to 4 hours of continuous heating. And the low-power heat is safe and adjustable to three levels.

"A simple press of a button turns on the micro-thin carbon fiber heating elements in the heated glove liners.

Heats along the sides of all fingers and thumb with three heat levels. Provides the warmth you want, when you want it.

Uses a battery pack that loads with 6 standard AA size batteries provides continuous heat for up to 4.5 hours."
